STAT

MEMORANDUM FOR:

SUBJECT: Memorandum of Appreciation (U)

I noted the recent publication of the Scientific and Technical Intelligence Committee document, "A Soviet Micro-electronics Technology Transfer Case Study." This is an excellent study, and I feel that it will be the analytical standard for future technology transfer studies. Your contribution, as a member of the STIC task group responsible for this study, to the Intelligence Community is significant and your hard work is greatly appreciated. Thank you for a job well done. (U)

/S/ John N. McMahon
